## Benefits

**Speed up your deployment** – Get your security system up and running quickly and efficiently with Security Center pre-installed and built-in wizard-based tools to configure your system.

**Protect your security system** – Streamvault appliances help you build a resilient security system that protects your data and operations. Our cyber security experts stay vigilant on evolving threats and help identify and address new vulnerabilities promptly.

**Reduce your system's footprint** – With Security Center and the SV-350E, you can consolidate video, access control, intrusion detection, and other security systems on a single device.

## Applications

### Retail

Standardize your processes across your entire chain. The Streamvault SV-350E appliance lets you record and monitor video locally, and makes it easy to connect remote sites with a centralized location.

### Education

The Streamvault SV-350E series lets you monitor entries and exits with unified video and access control, so you can keep staff and students safe across your school.

### Banking

Combine video, access control, and intrusion systems in a single platform and enhance security across your installations.
